

Dear High School Administrators,

I am a family nurse practitioner with Take Care Health Systems, a health care company that operates Take Care Health Clinics inside select Walgreens stores. We recently opened a clinic in the Walgreens at 500 South Commercial in Neenah. Take Care Health's vision is to provide access to high-quality, affordable and convenient health care, in collaboration with the local medical community.

Take Care Health Clinics are professional, no-appointment, walk-in health care clinics, open seven days a week with extended evening and weekend hours. Clinics are staffed by professional, nationally certified family nurse practitioners who diagnose and treat a variety of conditions, perform diagnostic screenings, camp and sport physicals, and administer vaccines. **Right now sports physicals are \$25.**

Take Care Health is especially convenient for kids who need to leave school for conditions such as strep throat, pink eye, a rash, or ringworm. Parents do not have to take off a whole day of work to get their child needed health care; rather, they only need to make a short drive to the nearest Take Care Nurse Practitioner. We can see children and adults in a 20 minute visit and prescribe medications when necessary.

Other Highlights:

- Most insurances plans are accepted; including, United Health Care, BadgerCare, Aetna, Multiplan, ChoiceCare, Cigna, and Humana PPO.
- Prices for Cash Payers are also affordable: \$59-74, so we are a great option for those without health insurance
- Our NPs encourage patients to have a primary care provider for follow-up care and if they don't, we'll find one in the area accepting new patients
- Take Care Health maintains an electronic health record for patients and can forward records to their primary care provider after their visit.

The attached information details what is treated at Take Care Health Clinic locations and insurance plans accepted. We are open Monday-Friday 8am-8pm and Saturday and Sunday 9:30am-5:30pm. Please feel free to contact me via e-mail or at 1-866-825-3227 if you have any questions or to discuss partnership opportunities.

Best regards,

Kathy VanRavenstein APNP
